SUMMARY

Results-driven Associate Engineer L2 with hands-on experience supporting DTCC, Delta Capita, and Managed Services Operations (MSO-NOC) in high-availability production environments. Proven expertise in 24x7 production support, incident and problem management, trade workflow monitoring, data reconciliation, operational analytics, and multi-cloud operations across Azure, AWS, and GCP. Skilled in SQL, Python, Linux, Azure Cosmos DB, Azure Data Explorer (ADX), ServiceNow, Jira, Zoho, and Grafana for troubleshooting, Root Cause Analysis (RCA), automation, and performance optimization. Experienced in supporting trade lifecycle processes, regulatory reporting, and financial operations while ensuring data accuracy, compliance, SLA adherence, and operational excellence through proactive monitoring and continuous improvement.

WORK EXPERIENCE

Associate Engineer L2, Publicis Sapient

June 2026 - Present

- Supported Delta Capita's financial operations by ensuring trade data integrity, reconciliation accuracy, and compliance with regulatory reporting requirements.
- Investigated and resolved complex production incidents through detailed troubleshooting, log analysis, and Root Cause Analysis (RCA), improving platform reliability and operational stability.
- Leveraged SQL, Azure Cosmos DB, Azure Data Explorer (ADX), and Application Insights to analyze large-scale datasets, identify discrepancies, and optimize business reporting processes.
- Managed business-critical applications across Azure, AWS, and GCP environments, ensuring high availability and adherence to SLA targets.
- Automated recurring operational activities using Python and SQL, reducing manual intervention and improving team productivity.
- Collaborated with development, infrastructure, and business teams to implement permanent fixes, streamline workflows, and enhance service performance.
- Contributed to problem management initiatives by identifying recurring failure patterns and driving preventive measures.
- Supported production releases, change management activities, and post-deployment validation processes.

Associate Engineer L1, Publicis Sapient

Dec 2024 - June 2026

- Delivered 24x7 production support for MSO-NOC and DTCC environments, ensuring continuous availability of critical applications and services.
- Monitored cloud infrastructure, applications, and transaction workflows across Azure, AWS, and GCP platforms using ServiceNow, Jira, Zoho, and Grafana.
- Managed incident queues, service requests, and operational escalations while maintaining SLA compliance.
- Supported trade processing, transaction reporting, clearing, and settlement workflows for DTCC operations.

- Performed application health checks, batch monitoring, workflow validation, and operational readiness assessments.
- Conducted first-level troubleshooting, log analysis, and issue triaging before coordinating with engineering teams for advanced resolution.
- Assisted in deployment validation, change implementation, and production support activities to ensure service continuity.

Trainee Associate Engineer, Publicis Sapient

Jul 2024 - Dec 2024

- Supported transaction reporting, clearing, and settlement services at DTCC.
- Monitored and optimized workflows.
- Contributed to infrastructure reliability by proactively monitoring applications and services across cloud environments using ServiceNow, Jira, Zoho, and Grafana.
- Worked cross functionally and quickly adapted to new systems and processes.

Intern Engineering, Publicis Sapient

Jan 2024 - Jul 2024

- Supported project teams by performing coding, bug fixing, system configuration, and secondary enhancements across different client environments.
- Gained exposure to real world IT service workflows, including incident management, service request handling, and change management processes.
- Collaborated with senior and business analysts to understand client requirements and contribute to solution delivery.
- Documented workflows, prepared reports, and created user manuals to assist in project delivery and knowledge transfer.

EDUCATION

M.S. Ramaiah University of Applied Sciences
Bengaluru, Karnataka

July 2020 - July 2024

Btech in Computer Science Engineering (AI & ML) **{7.37 CGPA}**

Guru Gobind Singh Public School
Bokaro Steel City (Jharkhand)

Apr 2018 - Jul 2020

12th CBSE (PCMIP) **{79%}**

Guru Gobind Singh Public School
Bokaro Steel City (Jharkhand)

Apr 2018

10th CBSE **{85%}**

ADDITIONAL INFORMATION

- **Technical Skills:** MySQL (SQL Development & Querying), Red Hat Linux (System Operations & Scripting), Azure Data Explorer (ADX), Azure Cosmos DB, Grafana, Zoho (Monitoring & Dashboarding), Bitbucket (Version Control & CI/CD), Virtual Machine, Data Recovery Techniques, DTCC Proprietary Tools (Trade Monitoring - ReportHub), Manual Testing & System Testing Environments
- **Programming Languages:** Python, JAVA, SQL
- **Languages:** English, Hindi, Bhojpuri

CERTIFICATIONS

- Certification from HACKERRANK in PYTHON, JAVA, SQL
 - Artificial Intelligence Fundamentals | IBM
 - Cybersecurity Fundamental | IBM
 - Certified in Data Fundamentals | IBM
 - Certified in Explore Emerging Tech | IBM
 - Advanced Software Engineering Job Simulation | WALMART USA (FORGE)
 - Certified in Machine Learning Pipelines with Azure ML Studio | Coursera
 - Certified in Create a Lead Generation Messenger Chatbot using Chatfuel | Coursera
 - Certified in Search Engine Optimization (SEO) with Squarespace | Coursera
 - Certified in Explore use cases of Microsoft Copilot for Security | Microsoft
 - Certified in Fundamentals of Responsible Generative AI | Microsoft
 - Certified in C# Basics For Absolute Beginners | O'Reilly
 - Certified in Generative AI For Risk & Cyber Security Professionals 2024 | Udemy
 - Certified in GenAI - The Basics | Publicis Groupe
 - Certified in Career Essentials in Generative AI | Microsoft and LinkedIn
 - Certified in Ethics in the Age of Generative AI | LinkedIn
 - Certified in Generative AI: The Evolution of Thoughtful Online Search | LinkedIn
 - Certified in Streamlining Your Work with Copilot | LinkedIn
 - Certified in The Cybersecurity Threat Landscape | LinkedIn
 - Certified in What Is Generative AI | LinkedIn
 - Certified in Agentic AI Fundamentals: Architectures, Frameworks, and Applications | LinkedIn
 - Certified in Designing Agentic AI Products | LinkedIn
 - Certified in Leveraging AI Agents in Cloud Computing | LinkedIn
 - Certified in Impact of Generative AI on Cyber Security | Udemy
 - Certified in Ethics and Generative AI on Cyber Security | Udemy
 - Certified in ETL using Python: from MySQL to BigQuery | Udemy
 - Certified in Introduction to Service Management with ITIL 4 | Udemy
 - Certified in Google Cloud Platform (GCP) Fundamentals for Beginners | Udemy
 - Certified in Azure Cloud Adoption Framework (CAF) & Azure Landing Zones | Udemy
 - Certified in MongoDB Python Developer Path | MongoDB
 - Certified in Lloyds Banking Group - Data Science Job Simulation | Forge
 - Certified in AWS SimuLearn: Cloud Practitioner | AWS
 - Certified in The Complete ServiceNow System Administrator Course | Udemy
 - Certified in Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle
 - Certified in Azure DevOps Bootcamp: Zero to Hero (Pipelines,Boards,Repos) | Udemy
 - Certified in AZ 400 | Udemy
-
